Division Director

April 6, 2011

Lantz Indergard
Lisbon Valley Mining Company
PO Box 248
La Sal, Utah 84530

Subject: Denial of the Revised Notice of Intention to Commence Large Mining Operations,
Lisbon Valley Mining Co., Lisbon Valley Mine, M/037/0088, San Juan County, Utah

Dear Mr. Indergard:

The Division has completed an initial review of your recently submitted revised large mine notice (NOI), received November 1, 2010. The Division discussed the inadequacies of this document with you and has decided to return the document to you so you can attempt to provide us with a document that more closely meets our needs.

Updating the NOI will require that you put together a comprehensive plan including all the currently applicable documents and commitments in a format that meets the Division's needs. It should address pertinent requirements of the R647 rules (R647-4-104, 105, 106, 108, 109, 110, 112, and 113), and it should be consistent with the BLM plan of operations, the Record of Decision, recent amendments, and permits from the Division of Water Quality. Copies of approvals from other agencies and of monitoring plans and results should be included as appendices.

Thank you for your cooperation and patience in completing this permitting process. If you have any questions regarding this letter, please contact me at 801-538-5261 or Tom Munson at 801-538-5321.

Sincerely,

Paul Baker
Minerals Program Manager
